

WATER CONSERVATION TIPS

FIX LEAKS IMMEDIATELY

Regularly check for leaks inside and outside your home.

DONT LEAVE THE TAP RUNNING

When shaving, brushing teeth, washing hands, washing dishes, turn off the faucet.

DONT LET TOILETS RUN

Toilets are one of the biggest water users in the home, and the source of most household leaks.

ONLY WASH FULL LOADS

When washing clothes or using the dish washer, only do full loads. Skip the extra rinse.

WATER PLANTS ONLY IF NECESSARY

Water between the hours of 10 am and 9pm.

TURN OFF IRRIGATION SYSTEMS

TAKE SHORT SHOWERS.

Baths use 3x as much water as a shower. Take only showers and keep them under 10 minutes each.

LIMIT OUTDOOR WATER USE

Skip the car wash, filling the pool, and watering the lawn unless necessary

RECYLCE WATER

Use rain water or other recycled water to water plants and gardens.
